

# Daniel Lautenschlaeger

## Electronics- & IT Student and Electrician

I am a technical passionate guy from down south of Germany, who is currently studying one semester User Experience Design at The Hague University of Applied Sciences. This gives me some nice insights about User Experience Design and provides a solid work basis to understand and cooperate better with Designers.

## Work Experience

### **Eventhand & Electrician**

EVENTCREW GMBH (KREUZLINGEN/SWITZERLAND)

December 2017 - Present

Building up & down of different events, theater set-ups and festivals

Key contributions:

- Wiring and setting up and down of lights on several big events
- Loading and unloading Trucks
- Building up and down of stages
- Setting up Lights and Speakers at the City-Theater of Zürich
- Building and wiring Traverses on and around stages

### **Electronics working student**

INGUN PRÜFMITTELBAU GMBH (CONTANCE, GERMANY)

January 2017 - February 2018

Assisted electrical engineers and the whole development department with small tasks. The tasks varied from wiring switch cabinets to making excel lists

Key contributions:

- Wired switch cabinets applying all the required DIN-ISO standards
- Helped developers with soldering and building up prototypes
- Did Warehouse work in the internal warehouse of the development department
- Created Excel lists and presentations to assist the engineers

### **Service-technician for Smartphones and Tablets**

ISOMEDIA GBR (STUTTGART, GERMANY)

June 2016 - August 2016

Repairing smartphones and tablets at the Samsung Customer Service plaza of Stuttgart, Germany

Key contributions:

- Did qualitative Repairing of several smartphone and tablet models, which keeps with the official Samsung warranty standard
- Responsible for the ESD-Checks of the working area
